STATE OF NEW YORK PUBLIC SERVICE COMMISSION

Application of Sunrise Wind LLC for a Certificate of Environmental Compatibility and Public Need for the Construction of Up to 6.2 Miles (320 kilovolt [kV]) of Direct Current (DC) Submarine Export Cable from the New York State Territorial Waters Boundary to the Smith Point County Park on Fire Island in the Town of Brookhaven in Suffolk County and Up to 17.5 Miles (320 kV) of Onshore Transmission Cable from the Landfall at Fire Island to a New Onshore Converter Station in the Town of Brookhaven and Up to 1 Mile (138 kV) of Alternating Current (AC) Onshore Interconnection Cable Connecting to the Existing Holbrook Substation in the Town of Brookhaven in Suffolk County Case 20-T-0617 Deficiency No. 23

SUNRISE WIND LLC'S RESPONSE TO DEFICIENCY NOTICE

Deficiency No. 23

16 NYCRR §88.5 requires the Applicant to provide a "[s]tatement describing the anticipated effects of the proposed line and related facilities on television, radio, and other communication systems." Exhibit E-5 of the application states that industry standards will be used to minimize or avoid impacts from the onshore converter station but does not describe if there are expected impacts to television, radio, and other communications systems from the converter station. Further, section E-5.2.1 of the application states, "[d]epending on the landfall location, the SRWEC–NYS may cross one known submarine telecommunications cable, Apollo North (see Figure E-5.2-1)." While the application acknowledges the potential crossing of the Apollo North submarine telecommunications cable, no statement describing the anticipated impacts to television, radio, and other communications systems resulting from construction and operation of the proposed facility, including the proposed onshore converter station and at the potential crossing of the Apollo North submarine telecommunications of the proposed impacts to television, radio, and other communications systems resulting from construction and at the potential crossing of the Apollo North submarine television, radio, and other communications systems resulting from construction and at the potential crossing of the Apollo North submarine television of the proposed facility, including the proposed onshore converter station and at the potential crossing of the Apollo North submarine television of the proposed scale.

Sunrise Wind's Response:

See Revised Exhibit E-5, which satisfies the requirements of 16 NYCRR § 88.5 and provides a description of any anticipated impacts to television, radio, and other communications systems resulting from construction and operation of the Project including at the potential crossing of the Apollo North submarine telecommunications cable.
