Case 20-T-0617
Deficiency No. 3

**SUNRISE WIND LLC's
RESPONSE TO DEFICIENCY NOTICE**

Deficiency No. 3

16 NYCRR §86.3(a)(1) requires an applicant to submit detailed maps, drawings and explanations showing the right-of-way for each proposed facility. Such maps, drawings and explanations shall include:

(1) New York State Department of Transportation (NYSDOT) maps (1:24,000 topographic edition), showing:

- (i) the proposed right-of-way (with control points indicated), covering an area of at least five miles on either side of the proposed facility location;*
- (ii) where the construction or reconstruction of the proposed facility would necessitate permanent clearing or other changes to the topography, vegetation or man-made structures; and*
- (iii) any known archaeologic, geologic, historical or scenic area, park or untouched wilderness on or within three miles of the right-of-way.*

The Application does not comply with the requirements of 16 NYCRR §86.3(a)(1). Although the Applicant has included a waiver request for the NYSDOT map (1:24,000 topographic edition), the waiver request only addresses the scale requirements and does not provide justification for any waiver of the requirement that the required information be presented on NYSDOT topographic edition maps. Figure 2.3-2 appears to include planimetric maps that do not show topographic features. Please provide a revised Figure

2.3-2 that includes the required information of 16 NYCRR §86.3(a)(1)(i)-(iii) on NYS DOT topographic edition maps.

Sunrise Wind's Response:

See Revised Figure 2.3-2, which satisfies 16 NYCRR § 86.3(a)(1)(i)-(iii). Please note, Section 2.3.1 includes a description of Revised Figure 2.3-2.
