Case 20-T-0617
Deficiency No. 4

**SUNRISE WIND LLC's
RESPONSE TO DEFICIENCY NOTICE**

Deficiency No. 4

16 NYCRR §86.3(a)(2) requires an applicant to: submit detailed maps, drawings and explanations showing the right-of-way for each proposed facility. Such maps, drawings and explanations shall include:

- (1) New York State Department of Transportation maps (scale 1:250,000) showing the relationship of the proposed facility to the applicant's overall system with respect to:*
 - (i) the location, length and capacity of the proposed facility, and of any existing facility related to the proposed facility;*
 - (ii) the location and function of any structure to be built on, or adjacent to, the right-of-way;*
 - (iii) the location and designation of each point of connection between an existing and proposed facility; an*
 - (iv) nearby, crossing or connecting rights-of-way or facilities of other utilities.*

The Application does not comply with the requirements of 16 NYCRR §86.3(a)(2). Although the Applicant has included a waiver request for the NYSDOT map (1:250,000 topographic edition), the waiver request only addresses the scale requirements and does not provide justification for any waiver of the requirement that the required information be presented on NYSDOT topographic edition maps. Figure 2.3-4 appears to include a USGS planimetric a map that does not show topographic features. Please provide a revised Figure 2.3-4 that includes the required information of 16 NYCRR §86.3(a)(1)(i)-(iii) on NYSDOT topographic edition maps.

Sunrise Wind's Response:

See Revised Figure 2.3-4, which has been updated to address 16 NYCRR § 86.3(a)(2).
